

Sales Analysis

Data Analytics

Uncovering trends and performance drivers.

Key Insights

Identifying opportunities to grow revenue.

Business Goal

Improve sales performance and drive sustainable growth.

Data-Driven Decisions

Turning data into actionable Insights.

SALES ANALYSIS OVERVIEW

Understanding sales performance, customer behavior, and geographic opportunities.

OUR OBJECTIVE

Evaluate SalesPro Co.'s sales performance to identify trends, understand customer purchasing behavior, and uncover opportunities for growth.

The analysis examines monthly sales trends, product performance, customer demographics, and geographic patterns to support data-driven business decisions.

ANALYSIS FOCUS AREAS

SALES TRENDS

Analyze monthly sales and performance patterns.

PRODUCT ANALYSIS

Explore sales across product sub-categories.

CUSTOMER INSIGHTS

Understand customer demographics and purchasing behavior.

GEOGRAPHIC ANALYSIS

Examine sales by country and commute distance.

MONTHLY SALES OVERVIEW

Tracking sales performance throughout the year

Monthly Sales Trend

Key Insights

- DECEMBER WAS THE STRONGEST SALES MONTH**
Sales reached \$1.87M, the highest point of the year.
- FEBRUARY WAS THE SLOWEST SALES MONTH**
Sales fell to \$771K, highlighting a potential seasonal opportunity.
- SALES STRENGTHENED THROUGHOUT THE YEAR**
Despite monthly fluctuations, sales generally increased, with stronger performance in the second half.

Key Takeaway

Revenue grew steadily across the year to a peak of \$1.87M in December, driven by strong second-half momentum. Focusing on early-year promotional strategies will help smooth out seasonal dips in Q1.

Top 5 Bestselling Sub-Category Products

These sub-categories drive the highest sales performance

Total Sales

Key Insights

- Mountain Bikes Lead**
Mountain Bikes generate the highest sales among all sub-categories.
- Strong Performance**
Road Bikes and Touring Bikes also contribute significantly to total sales.
- Lower Contribution**
Tires and Tubes and Helmets have the lowest sale contribution.

Key takeaway

Focusing on top-performing sub-categories like Mountain Bikes and Road Bikes can drive higher revenue, while underperforming categories may need strategic review.

Customer Demographics

Understanding our customer by household type

Customers with Children vs. No Children

Key Insights

69.04% of our customers have children, representing 2,257 customers.

30.96% of our customers do not have children, representing 1,012 customers.

Key takeaway

A majority of our customer base has children. Tailoring products, marketing, and promotions to family needs can drive stronger engagement.

Sales By Commute Distance

Understanding how commute distance impacts our sales

Commute Distance

Key Insights

- Short Commutes Drive More Sales**
Customers with a commute distance of 0-1 miles drive the highest sales.
- Sales Dcrease as distance decreases**
A clear downward trend in sales with longer commute distances is seen.
- Focus on Local Customers**
Strengthen engagement and promotion s for customers within shorter commute ranges.

Key takeaway

Most of our sales come from customers with shorter commutes (0-5 miles). Focusing on local customers can help drive higher sales and stronger loyalty.

Sales Across Different Age Groups

Understanding how sales vary across customer segments

Total sales by Age Group

30 – 40 years old 23,463 total sales	23,463
40 – 50 years old 16,584 total sales	16,584
50 – 60 years old 10,268 total sales	10,268
Over 60 years old 6,179 total sales	6,179
Under 30 years old 3,904 total sales	3,904

Key insights

- Strongest Segment**
Customers aged 30–40 contribute the highest total sales.
- Steady Decline with Age**
Sales generally decrease as age increases.
- Opportunity for Growth**
Focus on engaging customers under 30 and over 60 to unlock new growth potential.

Key Takeaway

Our core sales come from customers aged 0–50. Targeted strategies for younger and older segments can drive future growth.

Global Sales Performance

Comparing total sales performance across key countries

Key Insights

Top Performer

The United States leads with \$5.46M in total sales .

Strong performance

Australia follows closely, contributing \$4.34M in total sales.

Growth Opportunities

Focus on markets like Canada and France to drive higher sales potential.

Key takeaway The United States and Australia are our top revenue contributors. Strategic efforts in other markets can help unlock additional growth.

FINAL RECOMMENDATIONS

Based on our comprehensive sales analysis, focusing on high-impact strategic areas will drive sustainable growth and maximize revenue potential.

RECOMMENDED PRIORITY AREAS

1 Focus on Core Customer Segments

Customers aged 30–50 drive the highest sales volume.
Continue investing in targeted engagement and loyalty programs.
Develop campaigns to attract younger (<30) and mature (60+) groups.

MAXIMIZE VALUE FROM STRONGEST SEGMENT

2 Strengthen Top Performing Products

Mountain Bikes and Road Bikes are primary revenue drivers.
Promote high-performing items and explore premium offerings.
Use smart bundles and cross-sells to uplift lower categories.

BUILD ON WHAT DRIVES MOST SALES

3 Expand in Key Markets

The United States and Australia lead in overall conversion.
Invest in growth strategies for the UK, Germany, France, and Canada.
Tailor localized marketing campaigns to increase penetration.

CAPITALIZE ON STRONG MARKETS & UNLOCK GROWTH

4 Leverage Customer Behavior Insights

Short-commute customers (0–5 miles) generate peak sales.
Emphasize convenience and proximity in targeted messaging.
Tailor special promotional offers for distinct commuter segments.

ALIGN STRATEGY WITH CUSTOMER INTENT

CONCLUSION

STRATEGIC PRIORITIES

A clear path to sustainable growth and a stronger competitive position.

Four Core Pillars

FOCUS ON HIGH-VALUE SEGMENTS

GROW TOP PERFORMING PRODUCTS

EXPAND INTO KEY MARKETS

OPTIMIZE CUSTOMER EXPERIENCE

EXECUTION. IMPACT. GROWTH.

thank you!
